CONTENTS OF VOLUME 12

Volume 12 Number 1

Research Papers

A. C. Issekutz, D. M. Roland and R. A. Patrick — 1 — The effect of FUT-175 (Nafamstat Mesilate) on $C3_a$, $C4_a$ and $C5_a$ generation *in vitro* and inflammatory reactions *in vivo*

K. Nouza, K. Šůla, R. Dvořák, M. Svobodová, J. Müller and E. Sobotková — 11 — Preclinical screening and analysis of the immunotoxic and immunomodulatory activity using a multiple immunoassay (MIA) in mice

K. D. Leichtling, S. A. Serrate and M. B. Sztein — 19 — Thymosin alpha 1 modulates the expression of high affinity interleukin-2 receptors on normal human lymphocytes

S. Bailly, M. Fay, Y. Roche and M. A. Gougerot-Pocidalo — 31 — Effects of quinolones on tumor necrosis factor production by human monocytes

K. Ryoyama, I. Hori, C. Ryoyama and T. Umei — 37 — Effects of varying the injection routes of PSK or OK-432 on development of immune responses against a superimposed antigen

H. Matsumura, K. Onozuka, Y. Terada, Y. Nakano and M. Nakano — 49 — Effect of murine recombinant interferon-γ in the protection of mice against *Salmonella*

D. Fecchio, M. Russo, P. Sirois, P. Braquet and S. Jancar — 57 — Inhibition of Ehrlich Ascites Tumor *in vivo* by PAF-antagonists

L. G. Costa, G. Kaylor and S. D. Murphy — 67 — *In vitro* and *in vivo* modulation of cholinergic muscarinic receptors in rat lymphocytes and brain by cholinergic agents

J. Limpens, J. Garssen, W. Th. V. Germeraad and R. J. Scheper — 77 — Enhancing effects of locally administered cytostatic drugs on T effector cell functions in mice

J. A. Schmidt, R. Bomford, Xiao-Ming Gao and J. Rhodes — 89 — 3-Deazaadenosine—an inhibitor of interleukin 1 production by human peripheral blood monocytes

H. Blomgren — 99 — Influence of RU 41.740 on human monocytes *in vitro*: release of soluble factors which retard multiplication of tumor cells in culture

T. Toge, K. Kuroi, N. Baba, Y. Kegoya, T. Takayama, and E. Yanagawa — 107 Interference of the induction of suppressor cells by a streptococcal preparation, OK-432 through the blocking of suppressor inducer T-cells

J. G. M. Scharenberg, G. T. Rijkers, J.-W. Akkerman, G. E. J. Staal and B. J. M. Zegers — 113 Interference of deoxyadenosine with transmembrane signaling events in human T lymphocytes

Short Communication
A. Sato, F. Tanabe, M. Ito, E. Ishida and S. Shigeta — 121 Protein kinase C inhibitors enhance concanavalin A cap formation in polymorphonuclear leukocytes

Immunotoxicology
I. Melamed, J. D. Kark and Z. Spirer — 129 Coffee and the immune system

S. Ishizaka, E. Kikuchi, T. Higashino, K. Kinoshita and T. Tsujii — 135 Effects of acetate on the immune system of mice

An Invitation to Join the International Society for Immunopharmacology — i

General Information and Instructions to Authors — iii

Volume 12 Number 2

Research Papers
M. Hørding, P. C. Gøtzsche, I. C. Bygbjerg, L. D. Christensen and V. Faber — 145 Lack of immunomodulating effect of disulfiram on HIV positive patients

M. R. Finiasz, S. B. Fink, H. Peredo, E. Borda, M. M. E. de Bracco and L. Sterin-Borda — 149 Production of thromboxanes by transformed lymphocytes—effect on heart contractility

M.-F. Forgue, B. Pipy, M. Beraud, M.-C. Souqual and J.-M. Combis — 155 1-Naphthyl *N*-methyl carbamate effect on intra- and extracellular concentrations of arachidonic acid metabolites, and on the chemiluminescence generation by mouse peritoneal macrophages

S. R. Smith, K. J. Pennline, L. A. Bober, L. Kenworthy-Bott, L. Phillips, F. Pellerito, M. da Fonseca and C. Terminelli — 165 Inhibition of collagen II-induced arthritis in mice—a comparison of the effects of SCH 24937, immunosuppressants and nonsteroidal antiinflammatory drugs on the clinical expression of disease

T. W. Behrens and J. S. Goodwin	175	Control of human T cell proliferation by platelet-activating factor
F. Martinez and J. W. Coleman	185	A comparison of the effects of chlorpromazine and more selective histamine and 5-hydroxytryptamine antagonists on human IgG synthesis *in vitro*
C. Hu, L. Radelli, R. Scorza, P. Bonara, R. Perego and G. Fantuzzi	193	*In vivo* enhancement of NK-cell activity by thymopentin
F. Engels, A. A. Drijver and F. P. Nijkamp	199	Modulation of the release of 9-hydroxy-octadecadienoic acid and other fatty acid derived mediators from guinea-pig pulmonary macrophages
S. I. Hassan, S. S. Botros, H. M. El-Nahal, M. E. Azab, Z. A. Shaker and A. A. El-Garem	207	Effect of specific chemotherapy on the immune response and resistance to reinfection in experimental *Schistosomiasis mansoni*
A. L. Pukhalsky, A. P. Toptygina and V. V. Viktorov	217	Pharmacokinetics of alkylating metabolites of cyclophosphamide in different strains of mice
W. Itoh, I. Sugawara, S. Kimura, K. Tabata, A. Hirata, T. Kojima, S. Mori and K. Shimada	225	Immunopharmacological study of sulfated schizophyllan (SPG) I.—Its action as a mitogen and anti-HIV agent
Short Communications		
Wu Min, Tang Si-Lun, Zang Ren-jie and Yu He	235	Selective killing of tumor cells *in vitro* by an immunotoxin composed of ricin and monoclonal antibody against Ia antigen
W. K. Hagmann, M. M. Ponpipom, J. J. Jackson, D. D. Wood, R. C. Boltz Jr and H. J. Zweerink	241	Steroidal glycolipid, L-644,257, is a potent enhancer of nonspecific host resistance
An Invitation to Join the International Society for Immunopharmacology	i	
General Information and Instructions to Authors	iii	

Volume 12 Number 3

Research Papers		
Xiao Ling Jiang and C. L. Hinman	247	Ablation of natural killer cell function by soluble cardiotoxin

M. S. Gilardini Montani, F. Del Gallo, M. Gobbi, G. Lombardi, E. Piccolella, O. Pugliese and V. Colizzi — 255 Regulation of self-major histocompatibility complex reactive human T-cell clones

S. Specter, G. Lancz and J. Hazelden — 261 Marijuana and immunity: tetrahydrocannabinol mediated inhibition of lymphocyte blastogenesis

T. Noma, I. Yoshizawa, M. Baba, J. Yata, T. Akasaka and K. Maeda — 269 Effect of Ketotifen on antigen-induced interleukin 2 (IL-2) responsiveness in lymphocytes from patients with atopic dermatitis and/or bronchial asthma

T. Saito-Taki, T. Suzuki and M. Nakano — 279 IgG2b-dependent down regulation of the LPS-induced PFC-response and its blockade by Fcγ2bR protein

J. K. Youn, B. S. Kim, J. S. Min, K. S. Lee, H. J. Choi, Y. B. Lee, D. W. Lee, I. S. Park, J. K. Roh, J. B. Chung, E. H. Koh, Y. J. Park, H. I. Kim and K. B. Lee — 289 Adjuvant treatment of operable stomach cancer with polyadenylic·polyuridylic acid in addition to chemotherapeutic agents: a preliminary report

I. Saiki, H. Maeda, J. Murata, T. Takahashi, S. Sekiguchi, M. Kiso, A. Hasegawa and I. Azuma — 297 Production of interleukin 1 from human monocytes stimulated by synthetic lipid A subunit analogues

Bosco Shang Wang, A. L. Lumanglas, Yang-i. Lin and F. E. Durr — 307 Generation of tumoricidal effector cells with a novel potentiator: *N*-[4-[(4-fluorophenyl)-sulfonyl]phenyl] acetamide (CL 259,763)

G. C. Faure, M.-C. Béné, C. Simon and A. Quantain — 315 Increase in specific antibody-forming cells in human tonsils after oral stimulation with D-53, a ribosomal vaccine

B. S. Teh, W. K. Seow, S. Y. Li and Y. H. Thong — 321 Inhibition of prostaglandin and leukotriene generation by the plant alkaloids tetrandrine and berbamine

Short Communication

P. Thygesen, H. P. Hougen, H. B. Christensen, J. Rygaard, O. Svendsen and P. Juul — 327 Identification of the mononuclear cell infiltrate in the superior cervical ganglion of athymic nude and euthymic rats after guanethidine-induced sympathectomy

Immunotoxicology

Rapid Communication

H. Ohmori, A. Hazato, Y. Kato and S. Kurozumi — 333 Naphthalene derivatives that selectively inhibit an antigen-specific IgE response in murine lymphocytes

Research Papers

T. N. Dean, R. S. Selvan, H. P. Misra, M. Nagarkatti and P. S. Nagarkatti — 337 — Aldicarb treatment inhibits the stimulatory activity of macrophages without affecting the T-cell responses in the syngeneic mixed lymphocyte reaction

C. Stournaras, E. Spanakis, M. Perraki, M. Athanasiou, D. Thanos and V. Georgoulias — 349 — Triethyllead-induced inhibition of proliferation of normal human lymphocytes through decreased expression of the Tac chain of interleukin 2 receptor

An Invitation to Join the International Society for Immunopharmacology — i

General Information and Instructions to Authors — iii

Volume 12 Number 4

Research Papers

S. Sozzani, M. Sironi, M. Magistrelli, W. Luini, F. Spreafico and A. Vecchi — 359 — In-vivo effects of cyclosporin A on murine B-cells responding to type III pneumococcal polysaccharide

E. Mocchegiani, L. Cacciatore, M. Talarico, M. Lingetti and N. Fabris — 365 — Recovery of low thymic hormone levels in cancer patients by lysine–arginine combination

Y. Takeda, Y. Yoshikai, S. Ohga and K. Nomoto — 373 — Augmentation of host defense against *Listeria monocytogenes* infection by oral administration with polysaccharide RBS (RON).

A. F. Tawfik, S. J. Bishop, A. Ayalp and F. S. El-Feraly — 385 — Effects of artemisinin, dihydroartemisinin and arteether on immune responses of normal mice

G. Roscetti, L. Bongiorno, A. Urbani, M. Marini and L. G. Roda — 391 — Hydrolysis and binding of leucine enkephalin to lymphomic and erythroleukaemic cell lines

M. Sironi, A. Sica, F. Riganti, L. Licciardello, F. Colotta and A. Mantovani — 397 — Interleukin-6 gene expression and production induced in human monocytes by membrane proteoglycans from *Klebsiella pneumoniae*

M. Shalit and F. Levi-Schaffer — 403 — Auranofin inhibits histamine release from rat peritoneal mast cells

A. J. M. Van Oosterhout and F. P. Nijkamp — 409 — Effect of human interleukin-2 from different sources on lymphocyte and airway β-adrenoceptor function

C. H. Schneider, H. Rolli and M. F. Kasper — 413 — On the immunochemical specificity of pyrazolinone and pyrazolidinedione reactions

T. Fujioka, K. Ishikura, S. Tanji, T. Okamoto, H. Koike, H. Aoki, T. Ohhori and T. Kubo — 419 — Combined effects of intraperitoneal administration of recombinant interleukin-2 and streptococcal preparation OK-432 in murine tumors

L. A. 't Hart, P. H. Nibbering, M. Th. van den Barselaar, H. van Dijk, A. J. J. van den Berg and R. P. Labadie — 427 — Effects of low molecular constituents from *Aloe vera* gel on oxidative metabolism and cytotoxic and bactericidal activities of human neutrophils

T. R. Jerrells, C. A. Marietta, F. F. Weight and M. J. Eckardt — 435 — Effect of adrenalectomy on ethanol-associated immunosuppression

Immunotoxicology

P. Waring, M. Egan, A. Braithwaite, A. Mullbacher and A. Sjaarda — 445 — Apoptosis induced in macrophages and T blasts by the mycotoxin sporidesmin and protection by Zn^{2+} salts

K. Lundberg, L. Dencker and K.-O. Grönvik — 459 — Effects of 2,3,7,8-tetrachlorodibenzo-*p*-dioxin (TCDD) treatment *in vivo* on thymocyte functions in mice after activation *in vitro*

Announcements — 467

An Invitation to Join the International Society for Immunopharmacology — i

General Information and Instructions to Authors — iii

Volume 12 Number 5

Review Article

G. McLachlan, L. M. Smart, H. M. Wallace and A. W. Thomson — 469 — The potential of Cyclosporin A as an anti-tumour agent

Research Papers

A. H. Esa, W. O. Boto, W. H. Adler, W. S. May and A. D. Hess — 481 — Activation of T-cells by bryostatins: induction of the IL-2 receptor gene transcription and down-modulation of surface receptors

F. Rezzoug, J. L. Touraine, R. Zalisz and P. Smets — 491 — Effect of RU 41740 on autologous hemopoietic reconstitution of sublethally irradiated mice

K. Shibata, T. Kobayashi, N. Takayanagi, M. Fujiwara and I. Yamamoto — 497 — Immunomodulatory effect of a newly synthesized compound, TOK-8801 (*N*-(2-phenylethyl)-3,6,6-trimethyl-5, 6-dihydroimidazo [2,1-b]thiazole-2-carboxamide) on antibody production *in vivo* and delayed-type hypersensitivity in mice

D. Thibeault and M. Pagé — 503 — Coupling daunorubicin to monoclonal anti-alphafoetoprotein with a new activated derivative

M. Denis and E. Ghadirian — 509 — Human monocyte tumouristatic ability: modulation by cytokines and tumour cell products

T. Kawakita, S. Nakai, Y. Kumazawa, O. Miura, E. Yumioka and K. Nomoto — 515 — Induction of interferon after administration of a traditional Chinese medicine, xiao-chai-hu-tang (shosaiko-to)

Y. Kumazawa, M. Kaneko, K. Inagaki, N. Matsuzaki and K. Nomoto — 523 — Accelerated recovery from γ-irradiation-induced leukopenia in mice by the biscoclaurine alkaloid, Cepharanthin®—comparison with recombinant human granulocyte colony-stimulating factor

Short Communications

Y. Kumazawa, T. Kawakita, H. Takimoto and K. Nomoto — 531 — Protective effect of saikosaponin a, saikosaponin d and saikogenin D against *Pseudomonas aeruginosa* infection in mice

S. H. Pross, T. W. Klein, C. A. Newton, J. Smith, R. Widen and H. Friedman — 539 — Differential suppression of T-cell subpopulations by THC (delta-9-tetrahydrocannabinol)

M. Shimizu, K. Sekine, T. Kataoka and T. Iwaguchi — 545 — Lymphocyte electrophoreisis as an indicator of modulation of concanavalin A-induced suppressor T-cells *in vivo* by anti-cancer drugs

Immunotoxicology

M. Dueymes, Sokan In, J.-F. Labarre, F. Sournies and G. J. Fournié — 555 — Modulation of polyclonal activation of lymphocytes by cyclophosphazenic compounds bearing ethylene-imino groups and vectorized by polyamines

C. Thomas, P. Punt, R. Warringa, T. Högberg, W. Seinen and N. Bloksma — 561 — Popliteal lymph node enlargement and antibody production in the mouse induced by zimeldine and related compounds with varying side chains

C. Thomas, W. Lippe, T. Högberg, W. Seinen and N. Bloksma — 569 — Induction of popliteal lymph node enlargement and antibody production in the mouse by pyridylallylamines related to zimeldine

Announcement — 577

An Invitation to Join the International Society for Immunopharmacology i

General Information and Instructions to Authors iii

Volume 12 Number 6

Research Papers

B. S. Sharma, Y. S. Sanghvi, W. B. Jolley, G. R. Revankar and R. K. Robins 579 Low molecular weight human T-cell response immunopotentiator: α-2′-deoxy-3-deazaguanosine

S. Cunningham-Rundles and F. C. Pearson 589 ImuVert activation of natural killer cytotoxicity and interferon gamma production via CD16 triggering

M. Nakatsuka, S. Ikeda, Y. Kumazawa, M. Matsuura, C. Nishimura, J. Yuzuru Homma, M. Kiso and A. Hasegawa 599 Enhancement of nonspecific resistance to microbial infections of synthetic lipid A-subunit analogues of GLA-27 modified at the C1 position of the glucosamine backbone

P. Stevens and D. E. Piazza 605 Interleukin-2 increases the oxidative activity and induces migration of murine polymorphonuclear leukocytes *in vivo*

M. Suzuki, S. Higuchi, Y. Taki, S. Taki, K. Miwa and J. Hamuro 613 Induction of endogenous lymphokine-activated killer activity by combined administration of lentinan and interleukin 2

R. P. Warren, R. W. Sidwell, J. H. Huffman, E. W. Call, M. C. Healey, A. V. Johnston, L. A. Radov, R. J. Murray and C. R. Kinsolving 625 Effect of oxamisole on immune parameters of mice infected with murine hepatitis

J. Iwaz, E. Kouassi, S. Lafont and J. P. Revillard 631 Elevation of cyclic adenosine monophosphate levels independently down regulates IL-1, IL-2, and IL-2 receptor (CD25) syntheses

V. Vuddhakul, G. T. Mai, J. G. McCormack, W. K. Seow and Y. H. Thong 639 Suppression of neutrophil and lymphoproliferative responses *in vitro* by itraconazole but not fluconazole

D. Sabolović 647 Immunopharmacological properties of a protein-bound histamine metabolite

A. L. Pukhalsky, E. A. Kalashnikova, V. N. Lyashko and L. A. Pevnitsky 657 Inhibition of phytohemagglutinin-induced lymphocyte proliferation by dexamethasone: mechanisms of individual susceptibility

A. M. Isetta, M. C. Fornasiero, M. Ferrari and D. Trizio — 665 — Immunosuppressive activity of 4′-iodo-4′-deoxy-doxorubicin on humoral and cell mediated immune responses in mice: comparison with doxorubicin

I. Suzuki, H. Tanaka, A. Kinoshita, S. Oikawa, M. Osawa, and T. Yadomae — 675 — Effect of orally administered β-glucan on macrophage function in mice

A. Kammeyer, M. Y. M. Abdel Mawla, A. D. Oosterhoorn, M. Amer and S. S. Asghar — 685 — Inhibition of cellular infiltration at the site of Arthus reaction by chlorpromazine. Use of a new area integration technique

Short Communications

J.-L. Davignon, P. L. Cohen and R. A. Eisenberg — 691 — Immunological effects of recombinant interferon gamma *in vivo* in normal mice: failure to induce autoantibodies

J. H. Exon, J. L. Bussiere and G. G. Mather — 699 — Immunotoxicity testing in the rat: an improved multiple assay model

An Invitation to Join the International Society for Immunopharmacology — i

General Information and Instructions to Authors — iii

Volume 12 Number 7

Research Papers

A. C. Hanglow, H. Bachmann, M. Rosenberger and J. W. Coffey — 703 — Effects of a novel anti-inflammatory retinoid-like 2,4,6,8-nonatetraenoic acid on the immunological changes associated with adjuvant-induced arthritis

G. C. Spagnoli, C. M. Ausiello, G. Sconocchia, G. Antonelli, C. Amici and C. U. Casciani — 713 — Polymorphic effects of exogenous gangliosides on antigen-induced lymphoproliferation and generation of MHC unrestricted cell mediated cytotoxicity

M. Denis, E. O. Gregg and E. Ghandirian — 721 — Cytokine modulation of *Mycobacterium tuberculosis* growth in human macrophages

K. Shimoda, S. Okamura, C. Kawasaki, F. Omori, T. Matsuguchi and Y. Niho — 729 — Muroctasin [MDP-Lys(18)] augments the production of granulocyte colony-stimulating factor (G-CSF) from human peripheral blood mononuclear cells *in vitro*

M. M. Reddy, G. McKinley, A. Englard and M. H. Grieco — 737 — Effect of azidothymidine (AZT) on HIV P24 antigen, beta2-microglobulin, neopterin, soluble CD8, soluble interleukin-2 receptor and tumor necrosis factor alpha levels in patients with AIDS-related complex or AIDS

L. Romani, U. Grohmann, P. Puccetti, M. A. Rossi and M. C. Fioretti — 743 — Cell-mediated immunity to chemically xenogenized tumors. V. Failure of novel antigens to increase the frequency of tumor-specific cytotoxic T cells

R. Ophir, M. Pecht, E. H. Relyveld, Y. Burstein, S. Ben-Efraim and N. Trainin — 751 — THF-γ2, a synthetic thymic hormone, increases effectiveness of combined chemotherapy and immunotherapy against RPC-5 murine plasmacytoma

Short Communication

T. Yamashita, J. Ito, F. Abe, K. Takahashi, T. Takeuchi and M. Enomoto — 755 — Autoradiographic study of tissue distribution of [^{3}H]ubenimex in IMC carcinoma-bearing mice

Research Papers Continued

H. A. Weber, J. Maciejewski, R. Eckert, M. Schütt, W. Diezel and H.-D. Volk — 761 — Splenopentin (DAc-SP-5) accelerates the restoration of myelopoietic and immune systems after sublethal radiation in mice

J. Favero, J. F. P. Dixon, P. C. Bishop, R. Larguier and J. W. Parker — 769 — Lymphocyte mitogenesis and CD4 modulation induced by different phorbol esters: comparative studies

Rong-Tsun Wu, Hsuch-Ching Chiang, Wan-Chyung Fu, Kwang-Yu Chien, Yu-Mei Chung and Lin-Yea Horng — 777 — Formosanin-C, an immunomodulator with antitumor activity

N. S. Doherty, R. J. Dinerstein and S. Mehdi — 787 — Novel inhibitors of polymorphonuclear neutrophil (PMN) elastase and cathepsin G: evaluation *in vitro* of their potential for the treatment of inflammatory connective tissue damage

Immunotoxicology

S. C. Pourbohloul and T. M. Buttke — 799 — Identification of T-helper cells as the target of stearic acid-inhibition in primary antibody responses *in vitro*

L. E. Adams, S. M. Roberts, J. M. Carter, J. F. Wheeler, H. W. Zimmer, R. J. Donovan-Brand and E. V. Hess — 809 — Effects of procainamide hydroxylamine on generation of reactive oxygen species by macrophages and production of cytokines

An Invitation to Join the International Society for Immunopharmacology — i

General Information and Instructions to Authors — iii

Volume 12 Number 8

Research Papers

O. Costa, C. Bouthet, P. Sauvage, J. P. Michel and P. Deschaux — 821 Age-dependent LH and FSH effect on the proliferation of women's peripheral blood lymphocytes *in vitro*

L. Tentori, C. Leonetti, G. Lanzilli and E. Bonmassar — 831 IL-2 reverses the inhibition of cytotoxic T-cell responses induced by 5-(3,3′ dimethyl-1 triazeno)-imidazole-4-carboxamide (DTIC) *in vitro*

G. A. Belokrylov, I. V. Molchanova and E. I. Sorochinskaya — 841 Immunomodulatory properties of certain amino acids influence the immunostimulating properties of specific peptides

R. R. Iyer, H. K. Prasad, L. K. Bhutani and D. N. Rao — 847 Modulation of human lepromatous monocyte–macrophage functions *in vitro* by tuftsin

R. R. Iyer, H. K. Prasad, L. K. Bhutani and D. N. Rao — 859 Effect of tuftsin stimulation on the microbicidal activity exerted by blood monocyte–macrophages of leprosy patients

E. A. Coy, A. K. Reddy, J. J. Hostynek and G. J. Gleich — 871 Antiproliferative effects of amphiphilic molecules

T. Hasegawa, Y. Yoshikai, M. Okuda and K. Nomoto — 883 Accelerated restoration of the leukocyte number and augmented resistance against *Escherichia coli* in cyclophosphamide-treated rats orally administered with a hot water extract of *Chlorella vulgaris*

A. Sodhi, K. Pai, R. K. Singh and S. M. Singh — 893 Activation of human NK cells and monocytes with cisplatin *in vitro*

Short Communications

C. J. Dunn, L. A. Galinet, A. J. Gibbons and S. K. Shields — 899 Murine delayed-type hypersensitivity granuloma: an improved model for the identification and evaluation of different classes of anti-arthritic drugs

K. Nishioka, J. R. Wagle, A. M. Minter, T. Rodriguez, Jr and S. E. Dessens — 905 Tuftsin-enhanced thymidine incorporation by murine splenic monocytes

J. Clot and M. Andary — 909 Effect *in vitro* of a bacterial extract (OM-89) on interleukin 1 and interleukin 2 production by peripheral blood mononuclear cells from healthy subjects and rheumatoid arthritis patients

Immunotoxicology

P. A. Talcott, J. H. Exon, G. G. Mather and L. D. Koller — 917 Alterations of rat natural killer (NK) cell cytotoxicity and cytokine production by 3-methylcholanthrene (3-MC)

Announcement 927
